IT SHOULD BE MCKINLEY

The Masses of a Great Nation Owe It to the Major.

HIGHEST OFFICE OBTAINABLE

Comparison of the McKinley Law and the Wilson-Gorman Disastrous Legislation—Will Take Years to Remedy the Damage Already Done Our Nation.

Major William McKinley, America's Napoleon, and staunch advocate of the grand principle which gives unto the workmen of this great nation employment throughout the year, enabling them to live and enjoy the fruits of their labor, and protecting the manufacturer from the encroachment on his business of the products of foreign manufacture, produced by cheap labor on the other continent, should be the next president of the United States, and indications point to his nomination on the first ballot at the St. Louis convention. No man is more deserving of this honor than this champion of protection to the American people and her vast industries.

The workings of the Wilson-Gorman tariff law have been such as to vindicate the contention against low tariff by the Republican party. The tariff is a question of wages; we can manufacture everything here as cheaply as our foreign competitors, if the workmen will submit to a reduction in wages, the same as those paid foreign workmen. The result of the Wilson-Gorman tariff has been a great increase of imports, and that means less work for American manufacturers and less work for American workmen, and the only recourse the manufacturers have is to shut up their shops.

A number of manufacturers of Philadelphia went to Washington recently to confer with the silver senators, and said that unless they could have a protective tariff they would have to close the doors of their shops. The investigation following this conference showed that the increased importations due to the repeal of the McKinley law was accompanied by compulsory reduction in prices to such an extent that many manufacturers were running at a loss. The opening of the gates of this country to the foreign manufacturers not only reduced the demand for American goods, but compelled the home manufacturers to make sales at such reduced figures that they cannot pay living wages to their employees and continue operations.

A great decrease in prices has been made by foreign manufacturers in order to force their cheaply-produced merchandise on the American people and drive our manufacturers to the wall. In the last year of the McKinley tariff law the importation of woolen cloths amounted to 7,456,417 pounds, and were valued at \$6,756,321, while the first year of the Wilson-Gorman law showed the imports on the same goods to amount to 40,070,043 pounds, worth \$25,281,668, nearly six times as great, as that under the protective law, while the value was less than four times as great. The importations of other articles have increased proportionately under the Wilson law.

Warehouses and storerooms are being packed with cheap foreign productions, and the framing of a high tariff law is needed to stop the influx. Even with the McKinley tariff law restored it will take years to right the country from the predicament into which it has been plunged by the disastrous Wilson bill.

A turn in the tide is near at hand. We will have the party that wrecked the prospects of the manufacturer and the hopes of the workmen greatly in the minority in both house and senate, and with Major William McKinley in the highest office that it is the privilege of the American people to give, there will be a grand change, which will eventually restore both employer and employee to happiness and prosperity. Speed the event.

BEAUTIFUL SCENERY.

Was That Shown by Reverend Lee at His Entertainment Last Night.

A large audience, critical and select, was present at the First Presbyterian church last night, and witnessed a series of views, which for beauty and grandeur was never excelled in the city. There were in all 110 stereopticon plates used, brightly colored in a lifelike manner. The views were secured from V. D. Jones, general passenger agent of the Great Northern railway, and the plates were made from photos taken of the scenery along that line. The flouring industries of St. Paul

and Minneapolis, the great wheat fields of Dakota, the scenic gold regions of Montana, the grain and fruit growing section of Washington, and a number of beautiful views of the Rocky and Cascade mountains, with their high peaks and turbulent waterfalls, were shown. Doctor Lee's remarks touching on the scenery were highly instructive, and the large number present spent an evening of rare delight and enjoyment.

A DENIAL.

James Webber Says That His Father-in-Law Fabricates.

James Webber says that his father-in-law, Andrew Jones, the unfortunate old man, who was sent to the infirmary yesterday, tells an untruth when he said that he purchased the property that his daughter (Webber's wife) lives in and deeded it over to them on consideration that he was to be kept by them for the remainder of his life.

He says that the old man always was a worthless fellow and too lazy to do any work. His word could not be relied on and the statements that he made yesterday were all misrepresentations. Webber says that he has not seen his father-in-law for over 13 years and previous to that period they had refused to keep him simply because his presence was so obnoxious.

SOLD HIS INTEREST.

A Partner in a Trenton Art Pottery Sells Out.

Jonathan Coxon, a successful manufacturer of Trenton, N. J., sold out his interest in the Ceramic Art pottery in that place to his partner, Walter Lennox. The deal was consummated a few days since, the consideration being private. Mr. Coxon has been identified with the art pottery for a number of years, and owing to his skillful management, the business has been successfully carried on. The quality of ware turned out by this pottery is the finest of its kind made in this country, and its production has added fame to Trenton in the manufacture of ceramics. It is possible that Mr. Coxon may locate in the west in an enterprise similar to the one he was formerly engaged in.

TAKEN DOWN.

Old Telephone Line Between This City and Lisbon Removed.

The Bell company have taken down the old telephone line, erected between this city and Lisbon many years ago, and extending from that place to Salem. This was the first line constructed between the above named points and it has been in existence for a number of years. It is the purpose of the company to replace this line with a new one built from Wellsville to Lisbon.

The old question of running a wire to the Spring Grove camp grounds, that has been the subject of agitation in former years, is again being revived and there is a strong probability that the grounds will be brought into touch with the outside world by telephonic communication.

CONTEST AT STEUBENVILLE.

Local Turners Preparing to Take Part in a Tournament.

The local Turners are hard at work practicing for the tournament to be held in Steubenville, July 6, 7 and 8. Teams from surrounding cities will be present to contest for supremacy, and the local boys know that to make a good showing it is necessary to get down to work at once. The team that will represent this city has been chosen, and are under the direct leadership of Prof. Will Hertel.

The Liede krantz Singing society will have a flag presentation in Red Men's hall next Monday night, and an elaborate program has been prepared for the occasion. Visiting societies from adjacent towns will be present and be entertained and banqueted.

SHOT BLUE ROCKS.

The East End Gun Club's First Shoot of the Season.

The East End Gun club held their first shoot of the season on their grounds near Helena, yesterday. Blue rocks were the objects shot at and a number of good scores were made. Albert Hendricks proved himself an adept with the gun. He succeeded in breaking 48 birds out of 50. William Chambers came next with 41 to his credit. Jacob Arnold was a close third, hitting 39. A number of others made fairly good scores, and the boys enjoyed the shoot.

MAY FORM A LEAGUE

Baseball to Be Played by Pottery Teams.

MEETING AT CITY HALL TONIGHT

To Perfect the Organization—A Number of Potteries Have Declared Their Intention of Putting Teams in the Field. Much Interest Manifested.

From all indications the national game will be given quite a boost in the city this season. As has been noted before in the columns of this paper an effort will be made to organize a pottery base ball league here. An open meeting will be held at the city hall at 7:30 this evening for this purpose, and representatives from a number of potteries will be present to endeavor to form the league. At the meeting tonight officers will not be elected. The details incident to the new project will be attended to at a later period. Thomas Pickall, of Knowles', and Grant Myler, of Goodwin's potteries, are the chief promulgators of the proposed movement.

The plan outlined at present is to arrange to play two games a week and the winning club at the end of the season will be presented with a pennant flag. It is probable that no admission fee will be charged spectators at the games, as the contesting teams will only play for the glory and pleasure that there is in the game. An urgent request is made to all those who are interested in the national game to be present this evening at the meeting and lend their efforts towards making the league a success. The proposed new movement will act as a decided incentive to the national game, and it is a natural sequence to presume that much young blood will be developed through its instrumentality, and possibly the Ceramic City may achieve fresh fame in the base ball world by producing a few more Curt Welch, Winnie Mercers and Toadix Carews. The latter is playing brilliant ball for Syracuse from the latest reports, and is already becoming a general favorite with all. The enthusiasm displayed at present gives promise of a successful base ball season here.

THE HOSPITAL.

The Ladies are Hard at Work Soliciting Funds.

The ladies of the hospital association are making a strenuous effort to secure funds to further the grand project in which they are engaged heart and soul, and a canvas is being made among the residents today. The ladies are greatly encouraged and think they will have no trouble in raising the needed amount.

An attempt will be made to secure the large lot adjoining the cemetery, which is owned by the city, and is sufficiently large for their purpose, being 160 by 180 feet. In conversation with a leading attorney, they were informed that it would be a good move to ask the city to donate this property for their purpose, and he thought they would have no trouble in securing it. The ladies think the idea a good one and will endeavor to secure the property.

IT WAS TONY'S.

The Mace Advertised in the News Review Claimed.

Tony Bertele called at the News Review office this morning and identified the mace advertised as found, in this paper last evening. He claims that some one stole the weapon from his shop, and says if he finds out who the party or parties were he will have the pleasure of presenting them with a warrant. Tony was in a precarious position last night, being without his weapon, and should he have been called upon to make an arrest he would have been defenseless. The thought never entered our mind that the mace was the property of Tony, as we understood that he was having one made to order, and the advertising fee of \$150 could have been saved had we known the circumstances.

BY FIRELIGHT.

Making Garden by the Ruddy Glare of a Bonfire.

The rather novel sight of making garden by fire light was witnessed near East End last night. The head of the family, residing in a small house at the East End street railway trestle, built a bonfire and spaded the ground by the flames ruddy glare. The smoke from the fire gave the atmosphere an unpleasant odor and a bluish color, to which was added a sulphuric tint by people residing in

that neighborhood as they shut down their windows and mopped their brows. The innovation will hardly become popular, judging by the results from last night's experience.

AN ACCIDENT.

A Nail Driven Through a Boy's Thumb Last Night.

George Fowler, a young potter, met with a painful accident last night while chasing a companion and shopmate named Hester in the alley alongside the Ohio Valley Gas company's office. The two were armed with sticks, and as Fowler made a rush toward Hester the latter stopped suddenly and tried to knock Fowler's stick out of his hand. There was a wire nail in Hester's stick, and this penetrated the thumb of Fowler's right hand, going entirely through. Fowler's wound was so painful that he was sick for some time and he will be disabled for a couple of weeks.

RECEIVED THE BOOKS.

The Young Men's Christian Association Presented With 100 Hymn Books.

During Evangelist Schiverea's stay in the city he informed the Young Men's Christian association members that he would make them a present of some hymn books. True to his promise, 100 hymn books arrived by express last night for the Young Men's Christian association. The books are the kind were used at the evangelical meetings in the riuk while Reverend Schiverea was here, and are highly prized by the Young Men's Christian association, who will use them at their gospel meetings.

Made One.

James Campbell and Miss Cora Pow were joined in wedlock by Rev. J. M. Huston, at the Methodist Episcopal parsonage yesterday. The contracting parties are both residents of this city, and have a large circle of friends who wish them years of happiness and prosperity.

FLOORING WENT DOWN

And With It Went a Double Bin of Glassware.

AN ACCIDENT AT THE SPECIALTY

A Large Portion of the Flooring of the Warehouse at the Specialty Gave Way Last Night Shortly After Two O'Clock. A Strange Coincidence.

An accident occurred at Specialty Glass works last night that, had it happened in the day time, might have resulted in injury to someone.

The flooring in the warehouse, to the extent of a space about 28x28 feet, gave way, letting one double bin filled with glassware down to the storage room below, a distance of almost 12 feet. The storage room was filled with hay, and this broke the fall of the ware, and about one-half of it was saved. It is supposed that the jar caused by the 2 o'clock train caused the accident, as it happened very shortly after the train had passed. The floor has been considered unsafe for some time, and workmen had been engaged for a few days past in bracing it up, but had not succeeded in completing their work before the accident came. A strange coincidence in the accident is, that almost at the same time of night some years ago, the other end of the factory collapsed, and the only thing that the accident could be blamed on was the 2 o'clock train, as in this instance.

The accident was discovered by one of the boys on the night turn, who told the night watchman that he heard some one in the warehouse stealing glass, and when the watchman investigated he found the above result.

The force of men at the factory are all working today as usual, with the exception of the glass crew, but they will start tonight, and the factory will go ahead just as usual, and by Monday noon it is expected that the flooring will be fixed, as workmen are at present engaged in repairing the damage that was done.

It is strange that so much ware was saved, as the floor was literally covered with material, but a greater part of it didn't go down at all, as it was in bins which were attached to the walls, and was removed this morning with but slight difficulty. The managers of the glass house, when asked to state how much their loss would be, said that they were unprepared to make an estimate, but that it would be slight.

HOBOS IN THE COOP.

They "Rushed the Can," and Disturbed the Peace.

A gang of hobos who have made this city their rendezvous for the past few days, were arrested by Officer Whan and Patrolman McMillan today and placed in the lockup. At city hall the prisoners registered as Al Logan, James McCall, John Emmerson, Phillip Ross and Frank Sheridan. They came here from Akron, and during their stay have been peddling hair pins and spectacles. They were dirty and ragged in appearance, and spent the money they made in "rushing the can." They have been disturbing the residents of Sunnyside lately with their nightly carousals and drunken orgies. The officers captured the entire outfit near Mountford's pottery today at noon and conveyed them in the patrol wagon in a drunken state.

They presented a motley aspect and made the walls of the jail ring with melodious songs. Two other hobos, not connected with this gang, quickly left town when they heard of the fate of their brothers. The other evening an attempt was made to force an entrance in the house of Mr. Williams, of Starkey's lane, and it is thought that the e are the parties that did it. A charge of vagrancy may be preferred against the prisoners, and the penalty for this offense is a term in jail of not more than three years or less than one.

THEY HAVE CHEEK.

A Burglar Discovered in E. J. Owens' House Last Night.

Last night about 8:30 o'clock Mr. and Mrs. E. J. Owens were sitting in their dining room talking, when Mrs. Owens arose and started into the bedroom. She discovered a man in the room and called to her husband, who arrived just in time to see the man disappear through a window. Mr. Owen ran through the house, picking up something to defend himself with as he ran, but when he arrived in the alley the man had disappeared. It is supposed that the fellow was one of the tramps who have been spending their time near the brewery.

AN ACCIDENT.

A Nail Driven Through a Boy's Thumb Last Night.

George Fowler, a young potter, met with a painful accident last night while chasing a companion and shopmate named Hester in the alley alongside the Ohio Valley Gas company's office. The two were armed with sticks, and as Fowler made a rush toward Hester the latter stopped suddenly and tried to knock Fowler's stick out of his hand. There was a wire nail in Hester's stick, and this penetrated the thumb of Fowler's right hand, going entirely through. Fowler's wound was so painful that he was sick for some time and he will be disabled for a couple of weeks.

FLOORING WENT DOWN

And With It Went a Double Bin of Glassware.

AN ACCIDENT AT THE SPECIALTY

A Large Portion of the Flooring of the Warehouse at the Specialty Gave Way Last Night Shortly After Two O'Clock. A Strange Coincidence.

An accident occurred at Specialty Glass works last night that, had it happened in the day time, might have resulted in injury to someone.

The flooring in the warehouse, to the extent of a space about 28x28 feet, gave way, letting one double bin filled with glassware down to the storage room below, a distance of almost 12 feet. The storage room was filled with hay, and this broke the fall of the ware, and about one-half of it was saved. It is supposed that the jar caused by the 2 o'clock train caused the accident, as it happened very shortly after the train had passed. The floor has been considered unsafe for some time, and workmen had been engaged for a few days past in bracing it up, but had not succeeded in completing their work before the accident came. A strange coincidence in the accident is, that almost at the same time of night some years ago, the other end of the factory collapsed, and the only thing that the accident could be blamed on was the 2 o'clock train, as in this instance.

The accident was discovered by one of the boys on the night turn, who told the night watchman that he heard some one in the warehouse stealing glass, and when the watchman investigated he found the above result.

The force of men at the factory are all working today as usual, with the exception of the glass crew, but they will start tonight, and the factory will go ahead just as usual, and by Monday noon it is expected that the flooring will be fixed, as workmen are at present engaged in repairing the damage that was done.

It is strange that so much ware was saved, as the floor was literally covered with material, but a greater part of it didn't go down at all, as it was in bins which were attached to the walls, and was removed this morning with but slight difficulty. The managers of the glass house, when asked to state how much their loss would be, said that they were unprepared to make an estimate, but that it would be slight.

HOBOS IN THE COOP.

They "Rashed the Can," and Disturbed the Peace.

A gang of hobos who have made this city their rendezvous for the past few days, were arrested by Officer Whan and Patrolman McMillan today and placed in the lockup. At city hall the prisoners registered as Al Logan, James McCall, John Emerson, Phillip Ross and Frank Sheridan. They came here from Akron, and during their stay have been peddling dirty pins and spectacles. They were dired and ragged in appearance, and spent the money they made in "rushing the can." They have been disturbing the residents of Sunny-side lately with their nightly carousals and drunken orgies. The officers captured the entire outfit near Mountford's pottery today at noon and conveyed them in the patrol wagon in a drunken state.

They presented a motley aspect and made the walls of the jail ring with melodious songs. Two other hobos, not connected with this gang, quickly left town when they heard of the fate of their brothers. The other evening an attempt was made to force an entrance in the house of Mr. Williams, of Starkey's lane, and it is thought that the e are the parties that did it. A charge of vagrancy may be preferred against the prisoners, and the penalty for this offense is a term in jail of not more than three years or less than one.

THEY HAVE CHEEK.

A Burglar Discovered in E. J. Owens' House Last Night.

Last night about 8:30 o'clock Mr. and Mrs. E. J. Owens were sitting in their dining room talking, when Mrs. Owens arose and started into the bedroom and called to her husband, who arrived just in time to see the man disappear through a window. Mr. Owen ran through the house, picking up something to defend himself with as he ran, but when he arrived in the alley the man had disappeared. It is supposed that the fellow was one of the tramps who have been spending their time near the brewery.

Of Ohio.

THE BUTTON.

A trip through portions of Pennsylvania demonstrates the fact that Quay buttons are very numerous, worn in the lapels of the coats of the voters. Investigation reveals the fact, however, that in many instances those who wear the Quay button simply do so as a matter of state pride, and at heart are McKinleyites; and would, were they given the opportunity, vote straight for our Ohio man. The great heart of the People is beating for McKinley, and the masses in this great nation desire his nomination to the presidential berth.

VERY FUNNY.

It is intensely amusing to note the frantic efforts of the lower regions daily, as it laboriously endeavors to convince the voters of Columbiana county that there is still in existence a Democratic party in this section of country, and that there is a remote possibility that Democratic nominees stand a chance of being elected to county offices. If there ever existed a possibility of such an event, the actions of would-be leaders in this immediate locality has so thoroughly disgusted clean Democrats, that the possibility has passed into the regions of the absolutely void. In the words of ex-Mayor Hall: "I don't believe there is any Democratic party in this section," or words to that effect.

THE RECORD.

The record of the Republican party is that of prosperity for the masses; prosperity for the manufacturers and business men; prosperity for the nation; credit unimpaired; reserve fund untouched; honored by the nations of the world. The record of the Democratic party is that of disaster to the masses; disaster to manufacturers and business men; disaster to the nation; credit impaired; reserve fund outraged; dishonored in the eyes of the nations of the world. Never before, in the history of the United States, have the great masses been so thoroughly awakened to the truth of the above statements as at present, and they will place their ballots at the next presidential election in accordance with these truths. The Democratic party has been weighed in the balance and found lacking in every essential which tends to prosperity for the people. The Republican party has entered a large number of strong and brainy men in the presidential contest—men who build on a platform which cannot fail in doing good to the nation, and in whose hands the interest of the country will be safe and secure, while the Democratic leaders almost openly acknowledge the fact that they have not a man in the party under whose banner they have even a ghost of a chance to win, while their platform is a structure whose underpinning no man can understand. Truly, the once powerful Democratic party is in a most pitiable condition, the result of a race for spoils and an utter disregard of the true interests of the nation.

"BOCK" BEER.

How the Beverage is Brewed and Prepared For the Trade.

"Bock" beer is the keynote of history of beer brewing as it is understood by the people of this day. It is generally supposed that beer is of distinctively German origin, whereas it is a fact that beer was brewed by the men of many nationalities in many parts of the world centuries before the Christian era. The Egyptians, the Greeks, the Romans, made beer from corn and barley in those ancient times. The lager beer of the Germans was a Bavarian product and "bock" beer originated in Bavaria.

We have heard a number of stories as to the origin of the term "bock" beer, and while they all vary as to detail, they are as a rule correct. When beer was first brewed in Bavaria and for a long time afterward in that and all other parts of the world, ice formed no part in the manufacture, though it was very necessary that it should be fermented and stored in a cold temperature. As ice was not relied upon to make this cold air and as artificial refrigeration was not dreamed of, brewing was done only in cold weather, and the beer was stored in chill vaults underground. Here it was left to age until some time in spring, say the latter part of April or the beginning of May, when the vaults were thrown open and the thirsty public was regaled with a pure, wholesome draft of the foamy beverage. And as the first

JOSEPHINE'S EXTRAVAGANCE.

Even the Emperor Napoleon Was Bothered by Dressmakers' Bills.

Throughout the late summer and autumn of 1807 the imperial court was more stately than ever before. The old nobility became assiduous in their attendance, and as one of the empress' ladies in waiting is said to have remarked, the court "received good company." On his return Napoleon had found Josephine's extravagance to be as unbounded as ever, but he could not well complain, because, although for the most part frugal himself, he had this time encouraged lavishness in his family. Still, it was not agreeable to have dressmakers' bills flung into his carriage when driving in state with his consort, and on one occasion he sent an unprincipled but clever milliner to the prison of Bicetre for having disobeyed his orders in furnishing her wares to the empress at exorbitant prices. The person was so indispensable to the court ladies, however, that they crowded her cell, and she was soon released.

At St. Cloud, Malmaison, the Tuileries and Fontainebleau the social vices of courts began to appear, but they were sternly repressed, especially high play. By way of contrast, the city of Paris was at that very moment debauched by a profusion of gambling halls and houses of prostitution licensed at an enormous figure by Fouché and producing great revenues for the secret police. The gorgeous state uniforms of the marshals, the rich and elegant costumes of the ladies, the bespangled and beghil coats of the household, dancing, theatricals, concerts and excursions—all these elements should have combined to create brilliancy and gaiety in the imperial circle, but they did not. PRACTICALLY ENDORSED MCKINLEY

The Argument of a Delegate Prevailed, Who Said It Was Foolish to Endorse Debs, With So Many McKinley Buttons In Evidence.

COLUMBUS, April 17.—The National United Mine Workers re-elected Phil H. Penna, Linton, Ind., president; Cameron Miller, Massillon, O., vice president; W. C. Pearce, Corning, O., secretary-treasurer. The executive board is W. C. Webb, Kentucky; John Fahy, Pennsylvania; Fred Dilcher, Ohio; James O'Connor, Illinois; Henry Stephenson, West Virginia, and R. L. Davis, Ohio.

Patrick McBryde, retiring secretary, was elected honorary member and thanked in resolutions worded in the strongest language.

Governor Altgeld was thanked for pardons to certain Illinois miners. Censure was passed upon the New York and Cleveland Gas Coal company for conduct alleged to have been contrary to professions of interest in the miners.

The convention adopted a resolution which is practically an endorsement of Major McKinley. A resolution was introduced recommending the nomination of Eugene Debs for president by the Populist national convention at St. Louis in July. About two-thirds of the delegates were wearing McKinley badges, and W. C. Webb of Kentucky said the idea of adopting a resolution favoring a Populist candidate with a peck of McKinley badges in sight was ludicrous.

THE STATE LEGISLATURE.

Some of the Bills That Were Passed and Others Considered.

COLUMBUS, April 17.—A bill has passed in the house providing that infirm directors can contract for the care of aged and infirm deaf and dumb persons. Other bills passed in the house were: Providing that cemeteries can be located within a distance of the width of a street of a village.

Senate bill providing for the purchase of school books by the state.

Senate bill making Saturday afternoon a legal half holiday.

Providing that children's home can receive bequests.

Preventing fraud in the sale of woolen, shoddy and cotton goods.

Providing against the adulteration of linseed oil.

Providing for the improvement of the state house.

Providing that after a justice has given judgment on motion of the plaintiff, he can examine persons or companies as to their liability to the defendant.

Providing that the trustees of Young Men's Christian association buildings can transfer the title to the association.

Providing that children between the ages of 4 and 14 years shall not be kept in houses of ill fame.

Prohibiting saloons within 4,000 feet of the Sandusky Soldiers home.

These resolutions were considered: Senate, joint resolution (reconsidered and adopted) memorializing congress to erect a monument at Fort Recovery.

Joint resolution, directing the purchase of a portrait of ex-Governor McKinley passed in the senate.

Railroad Officials to Blame.

TOLEDO, April 17.—Coroner Henseler has rendered a verdict in the Wheeling and Lake Erie bridge disaster. He finds that Marshall, the switchman, came to his death by reason of negligence of the railway company in not providing a safe structure for its trains. He fixes the entire blame for the accident on the company and recommends that the state officials order an inspection of the bridge at once.

Under Indictment In Two Courts.

CINCINNATI, April 17.—Mr. W. A. Boynton, late cashier of the First National bank of Franklin, Warren county, O., has been brought from that city under arrest to answer an indictment of nine counts by a United States grand jury, accusing him of misappropriating the bank's funds and making false entries in its books. He is also under indictment in the Warren county court.

Favorable to the Eight-Hour Day.

CLEVELAND, April 17.—The Carpenters' union has received letters from fully 50 per cent of the building contractors of the city agreeing to the eight-hour day in case a majority decides in like manner. The strike at the King ax works has been settled by compromise and that at the Dangler Vapor Stove company by refusal of sanction on the part of the Polishers' union.

HOLMES BECOMES A CATHOLIC.

The Multi-Murderer Very Much Impressed by the Solemn Service.

PHILADELPHIA, April 17.—H. H. Holmes has been baptized and received into the Catholic church. The ceremony was performed by Rev. P. J. Daily of the Church of the Annunciation within the four walls of Holmes' cell at Moyamensing prison. Besides Holmes and Father Dailey there were present Rev. Fathers de Cantillon, Higgins and McCabe.

The condemned man went through the ceremony slowly and solemnly and with every evidence of sincerity. His responses were made in a fair voice and his eyes seldom wandered from Father Dailey's face. Then followed the baptism. He was evidently very much impressed.

One phase of Holmes' reception into the Catholic church is of peculiar interest. Catholics have impressed upon them from the moment they are received into the church the fact that no one who dies by his or her own hand can enter the kingdom of heaven. No suicide is now buried in consecrated ground. Holmes having embraced the Catholic faith so short a time before the date set for his execution has evidently decided to wait for the gallows rather than attempt self-destruction, if he ever contemplated it.

Want U. S. Minister to Intervene.

MANAGUA, Nicaragua, April 17.—A telegram has been received here from Nagarota, where President Zelaya now is, which says that a messenger from the rebels is now on his way to this city bearing a message from the leaders of the revolt to the United States minister, Lewis Baker. It is supposed here that they want Mr. Baker to intervene and arrange a peace between the contestants.

NEW YORK, April 17.—Dudley Porter and others of Haverhill, Mass., in a suit against J. M. Sigafus for \$1,000,000 have secured a verdict in the United States circuit court for \$30,375. The plaintiffs charged that the defendant sold them a gold mine in Riverside county, Cal., and misrepresented its character.

A. P. A.'S FIGHT ON MCKINLEY.

Cullom's Leader In Illinois Joins the Order to Help.

SPRINGFIELD, Ill., April 17.—It has developed here that there is a well organized plot to defeat McKinley instructions in the Republican state convention here April 29.

The circular sent out by the advisory committee of the American Protective Association denouncing McKinley on the grounds that he made appointments of Roman Catholics and because Richard Kereks and Stephen B. Elkins, McKinley managers, have denounced the A. P. A., was read in A. P. A. lodges in this city last night and resolutions were adopted denouncing McKinley and A. P. A. delegates to the state convention instructed for McKinley will be asked to violate their instructions.

It is stated that Hon. J. Otis Humphrey, who is a warm personal friend of Senator Cullom, and who led the fight in the county convention here for Cullom, but who is a delegate to the national convention from this district and who is instructed for McKinley, joined the A. P. A. last night and will lead the fight for Linton, the A. P. A. candidate for president.

On his return Napoleon had found Josephine's extravagance to be as unbounded as ever, but he could not well complain, because, although for the most part frugal himself, he had this time encouraged lavishness in his family. Still, it was not agreeable to have dressmakers' bills flung into his carriage when driving in state with his consort, and on one occasion he sent an unprincipled but clever milliner to the prison of Bicetre for having disobeyed his orders in furnishing her wares to the empress at exorbitant prices. The person was so indispensable to the court ladies, however, that they crowded her cell, and she was soon released.

At St. Cloud, Malmaison, the Tuilleries and Fontainebleau the social visits of courts began to appear, but they were sternly repressed, especially high play. By way of contrast, the city of Paris was at that very moment debauched by a profusion of gambling halls and houses of prostitution licensed at an enormous figure by Fouché and producing great revenues for the secret police. The gorgeous state uniforms of the marshals, the rich and elegant costumes of the ladies, the bespangled and bejeweled coats of the household, dancing, theatricals, concerts and excursions—all these elements should have combined to create brilliancy and gaiety in the imperial circle, but they did not.—"Life of Napoleon," by Professor Sloane, in Century.

PRACTICALLY ENDORSED MCKINLEY

The Argument of a Delegate Prevailed. Who Said It Was Foolish to Endorse Debs, With So Many McKinley Buttons In Evidence.

COLUMBUS, April 17.—The National United Mine Workers re-elected Phil H. Penna, Linton, Ind., president; Cameron Miller, Massillon, O., vice president; W. C. Pearce, Corning, O., secretary-treasurer. The executive board is W. C. Webb, Kentucky; John Fahy, Pennsylvania; Fred Dilcher, Ohio; James O'Connor, Illinois; Henry Stephenson, West Virginia, and R. L. Davis, Ohio.

Patrick McBryde, retiring secretary, was elected honorary member, and thanked in resolutions worded in the strongest language.

Governor Altgeld was thanked for pardons to certain Illinois miners. Censure was passed upon the New York and Cleveland Gas Coal company for conduct alleged to have been contrary to professions of interest in the miners.

The convention adopted a resolution which is practically an endorsement of Major McKinley. A resolution was introduced recommending the nomination of Eugene Debs for president by the Populist national convention at St. Louis in July. About two-thirds of the delegates were wearing McKinley badges, and W. C. Webb of Kentucky said the idea of adopting a resolution favoring a Populist candidate with a peck of McKinley badges in sight was ludicrous.

Railroad Officials to Blame.

TOLEDO, April 17.—Coroner Henseler has rendered a verdict in the Wheeling and Lake Erie bridge disaster. He finds that Marshall, the switchman, came to his death by reason of negligence of the railway company in not providing a safe structure for its trains. HOLMES BECOMES A CATHOLIC.

The Multi-Murderer Very Much Impressed by the Solemn Service.

PHILADELPHIA, April 17.—H. H. Holmes has been baptized and received into the Catholic church. The ceremony was performed by Rev. P. J. Daily of the Church of the Annunciation within the four walls of Holmes' cell at Moyamensing prison. Besides Holmes and Father Daily there were present Rev. Fathers de Cantillon, Higgins and McCabe.

The condemned man went through the ceremony slowly and solemnly and with every evidence of sincerity. His responses were made in a fair voice and his eyes seldom wandered from Father Daily's face. Then followed the baptism. He was evidently very much impressed.

One phase of Holmes' reception into the Catholic church is of peculiar interest. Catholics have impressed upon them from the moment they are received into the church the fact that no one who dies by his or her own hand can enter the kingdom of heaven. No suicide is now buried in consecrated ground. Holmes having embraced the Catholic faith so short a time before the date set for his execution has evidently decided to wait for the gallows rather than attempt self-destruction, if he ever contemplated it.

A. P. A.'S FIGHT ON MCKINLEY.

Cullom's Leader In Illinois Joins the Order to Help.

SPRINGFIELD, Ill., April 17.—It has developed here that there is a well organized plot to defeat McKinley in the Republican state convention here April 29.

The circular sent out by the advisory committee of the American Protective Association denouncing McKinley on the grounds that he made appointments of Roman Catholics and because Richard Kerens and Stephen B. Elkins, McKinley managers, have denounced A. P. A., was read in A. P. A. lodges in this city last night and resolutions were adopted denouncing McKinley and A. P. A. delegates to the state convention instructed for McKinley will be asked to violate their instructions.

It is stated that Hon. J. Otis Humphrey, who is a warm personal friend of Senator Cullom, and who led the fight in the county convention here for Cullom, but who is a delegate to the national convention from this district and who is instructed for McKinley, joined the A. P. A. last night and will lead the fight for Linton, the A. P. A. candidate for president.

RESTORE PENSIONERS.

Probable Action of Republicans
In the House.

PICKER'S BILL WILL BE PUSHED.

It Places the Removed Pensioners on the List Again on Application—Rumors of Interpretation of the Laws to Prevail. Increases the Budget Over \$2,000,000.

WASHINGTON, April 17.—The pension legislation, to be taken up by this congress, has been the subject of an conference by Republican leaders in Speaker Reed's room. There were present the speaker, Chairman Pickler of the committee on pensions and Representatives Dingley, Dalzell and Payne. Mr. Pickler's general pension bill, reported to the house by the committee, was discussed minutely, as the committee on rules desired to become familiar with the terms of the bill before deciding whether to give it time for discussion in the house.

It was decided that it would be good policy to take up the pension question and the bill will be brought forward in the house and ample time given for debate on it within a few days. Several changes were suggested in the details of the measure, however, and these will be submitted to the pensions committee for approval before the bill is taken up. Under this bill discontinuances or reductions of pensions would be unlawful, except for fraud, clerical errors, mistake in facts or recovery from disabilities.

Commissioners' interpretations of the act of 1890, which have been largely reversed by the present administration, would be restored, and pensioners dropped from the rolls by these reversals would be restored on application. The securing of pensions would be considerably facilitated. One of the changes which Speaker Reed and his colleagues desired is to drop the section of the Pickler bill which establishes a presumption that disabilities were not incurred through vicious habits. Mr. Pickler estimates that with the bill in operation the pension budget would be increased from \$2,000,000 to \$3,000,000 a year.

CHARGE-MAKING TOO FREQUENT.

Bill Defends Carlisle In a Dramatic Speech in the Senate.

WASHINGTON, April 17.—The resolution for an investigation of recent bond issues was taken up in the senate and Mr. Hill made a sensational and dramatic speech in opposition. The New York member defended Secretary Carlisle and his administration of the treasury against loose insinuations or irregularity, and showed the prevalence of charges of this character by presenting and reading in full the charges made by Senator Chandler against the friends of Mr. McKinley that a levy of money was being made on protected industries in behalf of Mr. McKinley's candidacy for the presidency.

As a further evidence of the prevalence of charges, Mr. Hill spoke of the sugar investigation, where, he said, one senator, referring to Mr. Quay, had frankly admitted that he bought sugar stock and had a right to buy it, and today that senator was the favorite son of the leading Republican state as a candidate for the presidency. In the course of his speech Mr. Hill disclaimed that he had authority to speak for the administration in opposing this investigation.

THE BERING SEA TREATY.

A Prompt Endorsement by Great Britain Soon Expected.

WASHINGTON, April 17.—To give effect to the Bering sea arbitration treaty, approved by the senate, it only remains for the British government to assent to the immaterial amendments adopted at the suggestion of the senate committee. It is believed Sir John Panncooke, the British ambassador, will be authorized by his government to act upon them at once in Washington and that exchange of ratifications will follow quickly. Already the selection of a commissioner to represent the United States on the arbitration has been under consideration, but it cannot be definitely learned who has been chosen.

MINISTER ARRESTED IN CUBA.

Spaniards Supposed to Object to Dr. Diaz's Sympathy For Rebels.

ATLANTA, April 17.—News of the arrest and incarceration by the Spanish officials of Rev. A. J. Diaz, the American citizen and superintendent of missions of the Southern Baptist convention in Cuba, has been received here.

It is presumed that the arrest is on account of Dr. Diaz's well known professed proclivities, though it is not believed here that he has been guilty of any overt act that should have subjected him to imprisonment. Dr. Diaz is a great favorite among the southern Baptists and it is probable that a concerted movement will be begun among them to secure his release.

He is a native of Cuba, and, it is said, had fled from the island during the former insurrection on account of his alleged connection with the rebels, he escaping from a pursuing party of Spanish soldiers by swimming out from the shore to a passing vessel. He went to New York and subsequently entered the Baptist ministry.

VICTIM OF HIS SWEET TOOTH.

A Chicago Baker Drowned While Swilling Molasses From a Barrel.

CHICAGO, April 17.—Charles Vieth, a baker, has suffocated himself with molasses. He was very fond of the stuff and in order to get enough he lay flat on his back on the floor, so that when he opened the clip on the barrel the syrup would flow into his mouth.

Then he opened his mouth and was literally drowned by the syrup. He was found dead with his mouth open and the molasses pouring into it. He was known as a glutton, but was not strong mentally, because of an injury on the head, sustained in an accident some time since.

SILVER MEN MAY REBEL

Neither Party Can Hold Coloradoans In Line.

TELLER HAS DECLARED HIMSELF.

He and Shafroth Refuse to Be Republican National Delegates—Democrats Will Leave Convention and Party, If Free Coinage Is Not Declared For.

DENVER, April 17.—The Times says: Senator Teller and Representative Shafroth have decided definitely that they will not be candidates for election as delegates to the national Republican convention. They feel that there is no hope that the convention will nominate or adopt a platform which they can endorse. Both say they cannot support a gold standard candidate for the presidency, no matter by what party nominated. Mr. Teller says he promised the people of Colorado in 1894 that he would not support a gold standard man in the campaign of 1896, and that he would not change his position now.

The Rocky Mountain News says editorially that the representatives of Colorado in the national gathering of the Democratic party will walk out of the hall and out of the party, unless the platform contains an unqualified declaration for free coinage and the candidate is suited to the platform.

Hon. Allen W. Thurman of Ohio sent a message to the Democratic state convention of Colorado predicting a victory for silver at Chicago if the Democrats from the western states are united and determined and declaring that the prospect "ought to awaken in the breast of every true Democrat such feelings of exultation and courage that even were he three score years and ten, yet would he feel it his duty to be in the front."

MCKINLEY AND HOBART.

This Ticket Wanted by New Jersey Republicans—Their Convention.

TRENTON, April 17.—The Republicans of New Jersey in their convention unanimously elected the slated candidates, United States Senator William J. Sewell, Garrett A. Hobart, John Kean, Jr., and State Chairman Franklin Murphy, as delegates-at-large to the St. Louis convention.

The delegates were not instructed regarding the presidential nomination, but the platform contained a strong recommendation of Garrett A. Hobart as an available man for the vice presidency. Some friends of Mr. Hobart, led by Congressman McEwen, endeavored to secure the adoption of a specific endorsement of McKinley, but the delegates regarded such hampering of the delegates as impolitic, and the proposition was ruled out of order.

The principal interest in the platform centered in the money plank, and, as expected, the convention adopted a resolution declaring for the gold standard and against the free coinage of silver. The friends of Mr. Hobart declare that his candidacy for vice president will be vigorously pushed. They recognize, however, that if an eastern man heads the ticket his chances are weakened, and it was for this reason that some of his friends endeavored to secure the endorsement of McKinley.

BRADELEY'S POOR VICTORY.

McKinley Endorsement Crept Into the Kentucky Republican Platform.

LOUISVILLE, April 17.—The Bradley slate was considerably damaged in the contests for delegates-at-large in the Republican convention A. R. Barnum, who has been a pronounced McKinley man, was chosen delegate by the second highest vote received by the candidates for these places. The other three delegates are Bradley men. The governor secured the endorsement of his presidential candidacy in the triumph over his opponents within the party of this state cannot be unalloyed, for the instructions are coupled with the provision that when his name shall go to the Ohio champion of protection.

The McKinley men could hardly have asked more. The hottest fight of the convention occurred after three delegates had been chosen on the question of negro representation on the delegation-at-large, but it was ended in the colored brother's favor before the vote was half through.

The four delegates chosen are A. S. Burnam, Colonel Levi P. Tareton, Senator W. J. Deboe and Rev. S. E. Smith, colored. A platform was adopted declaring for the gold standard, protection and reciprocity and expressing sympathy with Cuba.

MAINE'S FAVORITE SON

The Republican State Convention Enthusiastically Endorses Reed.

PORTLAND, Me., April 17.—Enthusiasm almost unequalled in the history of Republican politics in the state was centered about the home of Hon. Thomas Brackett Reed, the unanimous choice of the Republican state convention as candidate for president of the United States.

In fact there was no one to be found among all the delegates from whom the slightest reference to Reed did not call forth a demonstration of some sort. Reed buttons and badges were everywhere to be seen, and from Hon. Joseph Manley, who called the convention to order, to the least prominent delegate present, all were in apparent desire to enter into competition to show who could cheer the loudest for the favorite candidate.

The platform declared for sound money, protection and reciprocity and endorsed Reed as the proper man for president to enforce these doctrines.

The following delegates-at-large were elected: Amos L. Allen of Alfred, Charles E. Littlefield of Rockland, Edwin C. Burleigh of Augusta, Dr. E. A. Thompson of Dover.

GOVERNOR'S CLEVERNESS.

Powers and Herbert M. Heath all made brief speeches endorsing Reed and his policy.

Calcutta road residents are wondering why the work on the improvement of the road, which was stopped early in the fall by bad weather, has not been resumed, now that the climatic change is so favorable.

In the course of the next two weeks the ice plant will be started. As the past winter was not severe enough to allow the company to put up very much natural ice, they are compelled to start to make ice this early in the season.

Mrs. Alice Bartram, of Durham city, Durham county, England, sailed yesterday on the Pennland from Liverpool for this city, and will arrive here on the 27th, making her home with her aunt, Mrs. Mitcheson, of Sixth street.

The stationary engineers include within their organization all the engineers of the city who hold positions, with the exception of two, who have not yet become members. Arrangements to extend the lodge to Lisbon will soon be made.

It is a fact worthy of note that there is not nearly as much fast driving as there was previously to fitting those who were guilty of this practice. Apparently the ardor of the young men who participated in this habit has become considerably dampened.

Preparations to build the new German Lutheran church will be made next week. After holding one more service in the present edifice it will be torn down and the new place of worship erected on the same lot. Until the new church is completed services will be held in some hall.

The streets of the city are a pleasure to look upon as they are as clean as they could possibly be, and Commissioner Finley is to be congratulated on the manner in which he has started his reign of office. By this evening nearly every foot of paved street in the city will have been swept within the past week.

Two lady bicyclists collided on Fifth street near the Catholic church last night. One of the ladies was an experienced rider, but the other was a new beginner, and when her bike struck a stone it was impossible for the good rider to get out of the way and they went down in a heap, much to the amusement of a large number of spectators.

A new game, called the Publisher's Delight, is played in this way: Take a sheet of ordinary writing paper, fold it carefully, and enclose a bank note sufficiently large to pay up all arrearages and one year in advance. Keep an eye on the publisher, and if a smile adorns his face, the trick works like a charm. Now is the time to play the joke.—Hazel Greene Herald.

Mrs. Hamilton, of Wellsville, was so unfortunate as to lose her pocket-book containing several dollars yesterday afternoon. In some manner the lady dropped it out of a street car window on Franklin street, but although the car was stopped and a diligent search instituted, the purse was not found, and the lady was compelled to return home without the money.

A SAVAGE MARSUPIAL.

An Australian Mammal That is a Whole Menagerie In Itself.

The so called zebra wolf of Australia is also called the native tiger; but, strange to say, it is not even a cousin to zebra, wolf or tiger, belonging to the same family as the kangaroo, the slow and gentle wombat and the sly old opossum—all those animals that carry their babies in their pockets.

The eyes, which are large, are furnished with a membrane, like the eyes of owls, and this is called the nictitating membrane. This is almost continually moving in the daytime, as the eyes are exposed to more or less of sunshine. Without this membrane the amount of light admitted through the large pupil would dazzle the zebra wolf.

The general color of the somewhat short woolly fur is grayish brown, a little inclined to yellowish. Across this ground color the black bands show up sharp and clear. These stripes are usually 14 in number, beginning just back of the shoulders, where they are narrowest, and growing broader and longer back of the haunches. The skins are in demand for lap robes and rugs, which gives an added reason for hunting the wearers.

Two zebra wolves were taken to the zoological gardens in London, where they flourished and raised a family.

**For President,
WILLIAM MCKINLEY,
Of Ohio.**

THE BUTTON.

A trip through portions of Pennsylvania demonstrates the fact that Quay buttons are very numerous, worn in the lapels of the coats of the voters. Investigation reveals the fact, however, that in many instances those who wear the Quay button simply do so as a matter of state pride, and at heart are McKinleyites; and would, were they given the opportunity, vote straight for our Ohio man. The great heart of the People is beating for McKinley, and the masses in this great nation desire his nomination to the presidential berth.

VERY FUNNY.

It is intensely amusing to note the frantic efforts of the lower regions daily, as it laboriously endeavors to convince the voters of Columbiana county that there is still in existence a Democratic party in this section of country, and that there is a remote possibility that Democratic nominees stand a chance of being elected to county offices. If there ever existed a possibility of such an event, the actions of would-be leaders in this immediate locality has so thoroughly disgusted clean Democrats, that the possibility has passed into the regions of the absolutely void. In the words of ex-Mayor Hall: "I don't believe there is any Democratic party in this section," or words to that effect.

THE RECORD.

The record of the Republican party is that of prosperity for the masses; prosperity for the manufacturers and business men; prosperity for the nation; credit unimpaired; reserve fund untouched; honored by the nations of the world. The record of the Democratic party is that of disaster to the masses; disaster to manufacturers and business men; disaster to the nation; credit impaired; reserve fund outraged; dishonored in the eyes of the nations of the world. Never before, in the history of the United States, have the great masses been so thoroughly awakened to the truth of the above statements as at present, and they will place their ballots at the next presidential election in accordance with these truths. The Democratic party has been weighed in the balance and found lacking in every essential which tends to prosperity for the people. The Republican party has entered a large number of strong and brainy men in the presidential contest—men who build on a platform which cannot fail in doing good to the nation, and in whose hands the interest of the country will be safe and secure, while the Democratic leaders almost openly acknowledge the fact that they have not a man in the party under whose banner they have even a ghost of a chance to win, while their platform is a structure whose underpinning no man can understand. Truly, the once powerful Democratic party is in a most pitiable condition, the result of a race for spoils and an utter disregard of the true interests of the nation.

"BOCK" BEER.

How the Beverage Is Brewed and Prepared For the Trade.

"Bock" beer is the keynote of history of beer brewing as it is understood by the people of this day. It is generally supposed that beer is of distinctively German origin, whereas it is a fact that beer was brewed by the men of many nationalities in many parts of the world centuries before the Christian era. The Egyptians, the Greeks, the Romans, made beer from corn and barley in those ancient times. The lager beer of the Germans was a Bavarian product and "bock" beer originated in Bavaria.

We have heard a number of stories as to the origin of the term "bock" beer, and while they all vary as to detail, they are as a rule correct. When beer was first brewed in Bavaria and for a long time afterward in that and all other parts of the world, ice formed no part in the manufacture, though it was very necessary that it should be fermented and stored in a cold temperature. As ice was not relied upon to make this cold air and as artificial refrigeration was not dreamed of, brewing was done only in cold weather, and the beer was stored in chill vaults underground. Here it was left to age until some time in spring, say the latter part of April or the beginning of May, when the vaults were thrown open and the thirsty public was regaled with a pure, wholesome draft of the foamy beverage. And as the first

Issue from these vaults was stronger and
liable to go to the head, the people were
said to be "bocked," hence the name.
Another version of the story is that
when the vaults were thrown open, a
buck jumped out and that gave rise to
the name and also to the widely ad-
vertised "William" goat who adorns the
"bock" beer signs of the present day.
But "bock" beer season is a time of
sentiment to the Germans, and other
people have imbibed the sentiment with
the dark and heavy drink. They want
"bock" beer at the proper time and
they will drink it then and enjoy it.—

JOSEPHINE'S EXTRAVAGANCE.

Even the Emperor Napoleon Was Both-
ered by Dressmakers' Bills.

Throughout the late summer and au-
tumn of 1807 the imperial court was
more stately than ever before. The old
nobility became assiduous in their at-
tendance, and, as one of the empress's
ladies in waiting is said to have remarked,
the court "received good company." On
his return Napoleon had found Josephine's
extravagance to be as unbounded
as ever, but he could not well com-
plain, because, although for the most
part frugal himself, he had this time
encouraged lavishness in his family.
Still, it was not agreeable to have dress-
makers' bills flung into his carriage
when driving in state with his consort,
and on one occasion he sent an unprin-
ciple but clever milliner to the prison
of Bicetre for having disobeyed his or-
ders in furnishing her wares to the em-
press at exorbitant prices. The person
was so indispensable to the court ladies,
however, that they crowded her cell,
and she was soon released.

At St. Cloud, Malmaison, the Tuil-
eries and Fontainebleau the social vic-
es of courts began to appear, but they were
sternly repressed, especially high play.
By way of contrast, the city of Paris
was at that very moment debauched by
a profusion of gambling halls and
houses of prostitution licensed at an
enormous figure by Fouché and produc-
ing great revenues for the secret police.
The gorgeous state uniforms of the
marshals, the rich and elegant costumes
of the ladies, the bespangled and beglitt
coats of the household, dancing, theat-
ricals, concerts and excursions—all
these elements should have combined to
create brilliancy and gaiety in the im-
perial circle, but they did not.—"Life
of Napoleon," by Professor Sloane, in
Century.

PRACTICALLY ENDORSED MCKINLEY

The Argument of a Delegate Prevailed,
Who Said It Was Foolish to Endorse
Debs, With So Many McKinley Buttons
In Evidence.

COLUMBUS, April 17.—The National
United Mine Workers re-elected Phil
H. Penna, Linton, Ind., president;
Cameron Miller, Massillon, O., vice
president; W. C. Pearce, Corning, O.,
secretary-treasurer. The executive
board is W. C. Webb, Kentucky; John
Fahy, Pennsylvania; Fred Dilcher,
Ohio; James O'Connor, Illinois; Henry
Stephenson, West Virginia, and R. L.
Davis, Ohio.

Patrick McBryde, retiring secretary,
was elected honorary member and
thanked in resolutions worded in the
strongest language.

Governor Altgeld was thanked for
pardon to certain Illinois miners. Cen-
sure was passed upon the New York and
Cleveland Gas Coal company for con-
duct alleged to have been contrary to
professions of interest in the miners.

The convention adopted a resolution
which is practically an endorsement of
Major McKinley. A resolution was in-
troduced recommending the nomination
of Eugene Debs for president by the
Populist national convention at St. Louis
in July. About two-thirds of the dele-
gates were wearing McKinley badges,
and W. C. Webb of Kentucky said the
idea of adopting a resolution favoring a
Populist candidate with a peck of Mc-
Kinley badges in sight was ludicrous.

THE STATE LEGISLATURE.

Some of the Bills That Were Passed and
Others Considered.

COLUMBUS, April 17.—A bill has passed
in the house providing that infirm

Providing that cemeteries can be lo-
cated within a distance of the width of
a street of a village.
Senate bill providing for the purchase
of school books by the state.
Senate bill making Saturday afternoon
a legal half holiday.
Providing that children's home can
receive bequests.
Preventing fraud in the sale of
woolen, shoddy and cotton goods.
Providing against the adulteration of
linseed oil.
Providing for the improvement of
the state house.

Providing that after a justice has
given judgment - on motion of the
plaintiff, he can examine persons or
companies as to their liability to the
defendant.

Providing that the trustees of Young
Men's Christian association buildings
can transfer the title to the association.
Providing that children between the
ages of 4 and 14 years shall not be kept
in houses of ill fame.

Prohibiting saloons within 4,000 feet
of the Sandusky Soldiers home.

These resolutions were considered
and adopted memorializing congress to
erect a monument at Fort Recovery.

Joint resolution, directing the pur-
chase of a portrait of ex-Governor Mc-

Railroad Officials to Blame.

TOLEDO, April 17.—Coroner Henseler
has rendered a verdict in the Wheeling
and Lake Erie bridge disaster. He
finds that Marshall, the switchman,
came to his death by reason of negli-
gence of the railway company in not
providing a safe structure for its trains.
He fixes the entire blame for the ac-
cident on the company and recommends
that the state officials order an inspec-
tion of the bridge at once.

Under Indictment In Two Courts.

CINCINNATI, April 17.—Mr. W. A.
Boynton, late cashier of the First Na-
tional bank of Franklin, Warren
county, O., has been brought from that
city under arrest to answer an indict-
ment of nine counts by a United States
grand jury, accusing him of misap-
propriating the bank's funds and mak-
ing false entries in its books. He is also
under indictment in the Warren county
court.

Favorable to the Eight-Hour Day.

CLEVELAND, April 17.—The Carpen-
ters' union has received letters from
fully 50 per cent of the building con-
tractors of the city agreeing to the
eight-hour day in case a majority de-
cides in like manner. The strike at the
King ax works has been settled by com-
promise and that at the Dangler Vapor
Stove company by refusal of sanction
on the part of the Polishers' union.

HOLMES BECOMES A CATHOLIC.

The Multi-Murderer Very Much Im-
pressed by the Solemn Service.

PHILADELPHIA, April 17.—H. H.
Holmes has been baptized and received
into the Catholic church. The cere-
mony was performed by Rev. P. J.
Duffy of the Church of the Annuncia-
tion within the four walls of Holmes'
cell at Moyamensing prison. Besides
Holmes and Father Dailey there were
present Rev. Fathers de Cantillon, Hig-
gins and McCabe.

The condemned man went through
the ceremony slowly and solemnly and
with every evidence of sincerity. His
responses were made in a fair voice and
his eyes seldom wandered from Father
Dailey's face. Then followed the bap-
tism. He was evidently very much im-
pressed.

One phase of Holmes' reception into
the Catholic church is of peculiar inter-
est. Catholics have impressed upon
them from the moment they are re-
ceived into the church the fact that no
one who dies by his or her own hand
can enter the kingdom of heaven. No
suicide is now buried in consecrated
ground. Holmes having embraced the
Catholic faith so short a time before the
date set for his execution has evidently
decided to wait for the gallows rather
than attempt self-destruction, if he ever
contemplated it.

Want U. S. Minister to Intervene.

MANAGUA, Nicaragua, April 17.—A
telegram has been received here from
Nagarota, where President Zelaya now
is, which says that a messenger from
the rebels is now on his way to this
city bearing a message from the lead-
ers of the revolt to the United States
minister, Lewis Baker. It is supposed
here that they want Mr. Baker to inter-
vene and arrange a peace between the
contentants.

Sold Them a Poor Gold Mine.

NEW YORK, April 17.—Dudley Porter
and others of Haverhill, Mass., in a suit
against J. M. Sigafus for \$1,000,000
have secured a verdict in the United
States circuit court for \$330,375. The
plaintiffs charged that the defendant
sold them a gold mine in Riverside
county, Cal., and misrepresented its
character.

MONTREAL, April 17.—Great damage
is being done in the eastern townships
of Quebec by water rising in the rivers,
due to the hot sun melting the snow.
Railway bridges and tracks are washed
out, houses are submerged and factory
fires extinguished.

WILMINGTON, Del., April 17.—The
body of a man supposed to be Andrew
Doyle has been found on the banks of
the Shell Pot creek, near Landlith street,
this city. It was lying on its side and
the throat had been horribly cut.

Nichols were drowned.

Accused of Embezzling \$100,000.

charged with the embezzlement of
\$100,000 from the Lake National bank
of Wolfboro, N. H.

A. P. A.'S FIGHT ON MCKINLEY.

Cullom's Leader In Illinois Joins the
Order to Help.

SPRINGFIELD, Ill., April 17.—It has
developed here that there is a well
organized plot to defeat McKinley in-
structions in the Republican state con-
vention here April 29.

The circular sent out by the advisory
committee of the American Protective
association denouncing McKinley on the
grounds that he made appointments
of Roman Catholics and because Rich-
ard Kereens and Stephen B. Elkins, Mc-
Kinley managers, have denounced the
A. P. A., was read in A. P. A. lodges in
this city last night and resolutions were
adopted denouncing McKinley and A.
P. A. delegates to the state convention
instructed for McKinley will be asked
to violate their instructions.

It is stated that Hon. J. Otis Hamp-
rey, who is a warm personal friend of
Senator Cullom, and who led the fight
in the county convention here for Cul-
lom, but who is a delegate to the na-
tional convention from this district and
who is instructed for McKinley, joined
the A. P. A. last night and will lead the
fight for Linton, the A. P. A. candidate
for president.

are in favor of Hon. S. B. Elkins for
president, and in the event that he is
not or will not consent to be a candi-

will support William McKinley. Elk-
ins said he was not a candidate.

spond to President Lincoln's call for
troops.

The Inspector of Public Charities Visits the Jail.

THE INFIRMARY IS WELL KEPT

The Superintendent Highly Commended For the Excellent Condition of the Poor Farm—Barcus Murder Case Ordered Off the Docket—Court News.

LISBON, April 17.—H. B. Skadden, inspector for the state board of charities, made his annual tour of inspection today to the county jail and infirmary. No official report has yet been made, but the jail building, its ventilation and the general condition of its interior, was commended by him in strongest terms. The arrangement and management of the infirmary was commended highly, he stating that conditions under the management of Superintendent Riddle and wife were far above the average of any similar institution in the state.

Mrs. Susan O. Watson has been granted a divorce, on grounds of wilful absence, from William A. Watson.

The Eagle Hardware company was given a judgment against Julia Whittenberger for \$500, which is to be paid by order of the court in \$100 payments every 60 days. The suit was brought months since to recover the amount, which was due for material purchased from the plaintiff to be used in repairing a house in East Liverpool. In default of payment the property will be sold.

The joint indictment against Mary and John Barcus, charged with murder, has been ordered left off the criminal docket, which is now being made up for the May term of court. This was done on account of the absence of any evidence tending to make a case.

John Anderson, formerly of East Liverpool, was before the probate court this morning to answer a charge of having sold liquor to a minor. He pleaded guilty and was fined \$25 and costs.

Edward Jackson and William Williams, who were brought to the county jail from East Liverpool, charged with stealing a skiff from Isaac Riley, were arraigned before Judge Young. They pleaded guilty to petit larceny and were sentenced to five days in jail and fined \$10 and costs each.

Oscar Birch was this morning appointed executor of the estate of the late B. C. Birch, of East Liverpool, with \$1,500 bond.

Wm. T. Jenkins filed a \$6,000 bond and was appointed guardian for the personal estate of Jennie Davidson, of Washington township.

A SMALL FIGHT.

Two Boys Endeavor to Amuse the Audience at the Grand.

Last evening at the Grand, between the third and fourth acts of the play, two boys in the gallery became engaged in a war of words over some trivial matter and it was with difficulty that the usher restrained them from coming to blows on the spot, but as they were both spoiling for a fight, they started down stairs together, followed by a host of small boys. As soon as they reached the pavement they went at it, in the most approved fashion, and began to claw and hammer each other in a style that would have done credit to a Corbett or Fitzsimmons. A bystander separated them after a hard struggle, but the boys declared they would fight it out at some future time. Both of the lads are old enough to know better, and will no doubt, upon second thought, see how foolish they were and leave the matter drop.

Those who never read the advertisements in their newspapers miss more than they presume. Jonathan Kenison, of Bolan, Worth company, Iowa, who had been troubled with rheumatism in his back, arms and shoulders, read an item in his paper about how a prominent German citizen of Ft. Madison had been cured. He procured the same medicine, and to use his own words: "It cured me right up." He also says: "A neighbor and his wife were both sick in bed with rheumatism. Their boy was over to my house and said they were so bad he had to do the cooking. I told him of Chamberlain's Pain Balm and how it had cured me; he got a bottle and it cured them up in a week. Fifty cent bottles for sale by A. H. Bulger, druggist."

Received Sad News.

BASE BALL NOTES.

The League Season Opened Yesterday—Much Interest Here.

A great deal of interest was manifested here last night, when the ball scores came in, and every place in the city where they will be received during the summer was packed with eager ones, anxious to know how their favorite club fared at the hands of their opponents. From the enthusiasm displayed last night it looks as though the coming season ought to be a booming one in base ball circles for East Liverpool.

The fence at the West End park is being rebuilt and the grounds are being put in condition.

Joe Tolbert and Albert Geisz went to East Palestine this morning to arrange a game for the Crackajacks with the club of that place.

Eddie Hanlon, the catcher of the Eclipse team in their palmy days, has signed to play middle field for the Tiffin team.

When the news came in last night that Winnie Mercer had won the first game for the Washington club, the sportsmen of the city were overjoyed. His record shows that he helped win the game himself, as he made three runs and one hit. In speaking of the game the Pittsburgh Times says: "While fewer hits were registered against Clark than Mercer, the latter pitched the better game, as he did not give a base on balls, while Clark gave three and hit a man."

The Young Men's Christian association ball team met last night, but transacted no business, as there was nothing of importance to be done.

People who were near the corner of Sixth and Washington streets about 3:30 yesterday afternoon were treated to a small sized wild west show, participated in by three boys. As John Rusby attempted to get on the back of a horse it shook him off and started to run. The other two boys, who were on horseback, started after it, and for some time pandemonium reigned in the neighborhood, but it finally ended by the horse returning to the livery stable of its own accord.

Diamond Pump.

Since the Diamond pump subject has been agitated it was suggested by a business man that, as there is no money in the treasury, a contribution box be placed on the pump and when a man is heard to express himself as to how much he would give to have the pump started, he be referred to the box and place therein the sum he is willing to give, and that they would soon have enough money to start.

A Wild West Show.

People who were near the corner of
Sixth and Washington streets about
3:30 yesterday afternoon were treated
to a small sized wild west show, par-
ticipated in by three boys. As John
Rusby attempted to get on the back of
a horse it shook him off and started to
run. The other two boys, who were
on horseback, started after it, and for
some time pandemonium reigned in
the neighborhood, but it finally ended
by the horse returning to the livery
stable of its own accord.

Diamond Pump.

Since the Diamond pump subject
has been agitated it was suggested by
a business man that, as there is no
money in the treasury, a contribu-
tion box be placed on the pump and
when a man is heard to express him-
self as to how much he would give to
have the pump started, he be referred
to the box and place therein the sum
he is willing to give, and that they
would soon have enough money to
start.

It will be an agreeable surprise to
persons subject to attacks of bilious
colic to learn that prompt relief may
be had by taking Chamberlain's colic,
cholera and diarrhoea remedy. In
many instances the attack may be
prevented by taking this remedy as
soon as the first symptoms of the dis-
ease appear. Twenty-five and 50 cent
bottles for sale by A. H. Bulger, drug-
gist.
